Prospective Employees

Our goal is to enhance the growth and development of our people and help them keep their skills current and in tandem with our client needs. We believe that an organization-level focus for continued learning is the only way to stand high on the technology curve. We offer the best-of-breed training and orientation on cutting-edge technologies, across domains. Every employee gets constantly trained on their communication skills, leadership skills and their ability to work as a team player.

Training with 100% Placement*

For Graduates with Bachelors and/or Masters Degrees in Technology/Management related fields, we provide the following at NO COST to you:

- Well designed course curriculum & intensive training to meet industry-specific requirements
- One-to-One Interaction with instructors
- Mock interviews & Resume review
- Resources such as desktop, books & stationary
- Highly experienced faculty with several years of industrial experience
- Proven track record of 100% placement through our dedicated & vast marketing team
- Simulated projects to promote understanding of real-time problems encountered in projects
- Accommodations & living expenses

* All of the above are provided to you at NO COST by Supreme Soft, Inc.
