

**Getting to Know a Scholar: 10/31-11/6/16**

**Lee Fisher** is from Salisbury NC and graduated from Gray Stone Day School in 2013. Lee is mathematics major and enjoys listening to music, reading, and playing video games in his free time. He discovered his love for mathematics in high school and soon found himself thinking about mathematics in his spare time and in other classes. This is when Lee decided to commit to math as a major. Lee decided to attend ASU because he enjoys the cold mountain weather and I quote, “wearing good looking Coats!”
