

Getting to Know a Scholar: 10/26-11/1/15

Nadine Lambert is from Asheboro, NC and attended Southwestern Randolph High School in 2013. She is majoring in general mathematics with a computation concentration. Her favorite subjects are math and computer science and she enjoys running in her free time. Nadine has always loved mathematics and after taking Computer Science 1440 she decided that a computation concentration was perfect for her. She chose ASU because of the location and because of the positive experience she had being the STEP/Summer Bridge program.
