

Self-Paced Labs

help each with the lab, solidify the material & make connections

- Take out Benjamin Franklin handwrite from the packet and open ASULearn. I recommend you work together
- I'm happy to help although I need to continue social distancing—I'll answer your questions, periodically write on the front board or make announcements!

optional:

- share your screen with me in Zoom (access it from the need help forum and mute to avoid feedback)
- raise your hand, stand up, and/or Zoom chat—let me know if you are stuck or have questions

If finished early, you can scan the lab to a PDF to submit it in the ASULearn assignment or leave to submit it later. It is part of the homework under Tuesday on ASULearn.
